The NatWest Group has investments worth over £2 billion in 15 companies that produce nuclear weapons.

On 22 January 2021, nuclear weapons became illegal under international law. The UN Treaty which bans them was agreed by the vast majority of countries. As a result, more and more financial institutions are excluding investments in companies producing weapons of mass destruction.

It only takes a minute to let your bank know you'd like your money invested more positively. To send a template email or letter visit:
